

# Laborers' & Mechanics' Minimum Rates of Pay

Effective September 1st, 2001  
Issue 3

Title 36. Public Contracts  
AS 36.05.010 & AS 36.05.050

Wage & Hour Administration  
Pamphlet No. 600  
State of Alaska, Department of Labor  
and Workforce Development  
Tony Knowles, Governor

September 1, 2001

## **ALL CONTRACTING AGENCIES**

Attached is a copy of the prevailing wage rates that become effective September 1, 2001.

All projects with a final bid date of September 11, 2001, or later, must pay the prevailing wage rates contained in this pamphlet. As the law now provides, these rates will remain stable during the life of a contract for up to two years. Upon expiration of the initial 24-month period, the latest wage rates issued by the Department shall become effective for a subsequent 24-month period or until the original contract is completed, whichever occurs first. This process shall be repeated until the original contract is completed.

Currently, new wage rates are issued twice a year by the Department of Labor and Workforce Development, in April and September.

The term “original” contract as used herein means the signed contract that resulted from the original bid and any amendments, including change of work scope, additions, extensions, change orders, etc., agreed to by the parties who have not been subject to subsequent open bid procedures.

If a higher federal rate is required due to partial federal funding or other federal participation, the higher rate must be paid.

For questions regarding prevailing wage regulations please contact the Wage and Hour Administration at PO Box 107021, Anchorage, AK 99510-7021, 907-269-4900, or Anchorage\_LSS-WH@labor.state.ak.us.

Ed Flanagan  
Commissioner

## EXCERPTS FROM ALASKA LAW

### **Sec. 36.05.010. Wage rates on public construction.**

A contractor or subcontractor who performs work on public construction in the state, as defined by AS 36.95.010, shall pay not less than the current prevailing rate of wages for work of a similar nature in the region in which the work is done. The current prevailing rate of wages is that contained in the latest determination of prevailing rate of wages issued by the Department of Labor at least 10 days before the final date for submission of bids for the contract. The rate shall remain in effect for the life of the contract or for 24 calendar months, whichever is shorter. At the end of the initial 24-month period, if new wage determinations have been issued by the department, the latest wage determination shall become effective for the next 24-month period or until the contract is completed, whichever occurs first. This process shall be repeated until the contract is completed.

### **Sec. 36.05.040. Filing schedule of employees, wages paid, and other information.**

All contractors or subcontractors who perform work on a public construction contract for the state or for a political subdivision of the state shall, before the Friday of each week, file with the Department of Labor a sworn affidavit for the previous week, setting out in detail the number of persons employed, wages paid, job classification of each employee, hours worked each day and week, and other information that the Department of Labor requires.

### **Sec. 36.05.060. Penalty for violation of this chapter.**

A contractor who violates this chapter is guilty of a misdemeanor and upon conviction is punishable by a fine of not less than \$100 nor more than \$1,000, or by imprisonment for not less than 10 days nor more than 90 days, or by both. Each day a violation exists constitutes a separate offense.

### **Sec. 36.05.070. Wage rates in specifications and contracts for public works.**

- (a) The advertised specifications for a public construction contract exceeding \$2,000 to which the state or a political subdivision of the state is a party that requires or involves the employment of mechanics, laborers, or field surveyors shall contain a provision stating the minimum wages to be paid various classes of laborers, mechanics, or field surveyors and that the rate of wages shall be adjusted to the wage rate under AS 36.05.010.
- (b) Repealed by §17 ch 142 SLA 1972.
- (c) A contract for public works in the state or a political subdivision shall contain provisions that
- (1) the contractor or subcontractors of the contractor shall pay all employees unconditionally and not less than once a week;
  - (2) wages may not be less than those stated in the advertised specifications, regardless of the contractual relationship between the contractor or subcontractors and laborers, mechanics, or field surveyors;
  - (3) the scale of wages to be paid shall be posted by the contractor in a prominent and easily accessible place at the site of the work;
  - (4) the state or a political subdivision shall withhold so much of the accrued payments as is necessary to pay to laborers, mechanics, or field surveyors employed by the contractor or subcontractors the difference between
    - (A) the rates of wages required by the contract to be paid laborers, mechanics, or field surveyors on the work, and
    - (B) the rates of wages in fact received by laborers, mechanics, or field surveyors.

### **Sec. 36.05.080. Failure to pay agreed wages.**

Every contract within the scope of AS 36.05.070 shall contain a provision that if it is found that a laborer, mechanic, or field surveyor employed by the contractor or subcontractor has been or is being paid a rate of wages less than the rate of wages required by the contract to be paid, the state or its political subdivision may, by written notice to the contractor, terminate the contractor's right to proceed with the work or the part of the work for which there is a failure to pay the required wages and to prosecute the work to completion by contract

or otherwise, and the contractor and the contractor's sureties are liable to the state or its political subdivision for excess costs for completing the work.

**Sec. 36.05.090. Payment of wages from withheld payments and listing contractors who violate contracts.**

- (a) The state disbursing officer in the case of a state contract and the local fiscal officer in the case of a political subdivision contract shall pay directly to laborers, mechanics, or field surveyors from accrued payments withheld under the terms of the contract the wages due laborers, mechanics, or field surveyors under AS 36.05.070.
- (b) The state disbursing officer or the local fiscal officer shall distribute to all departments of the state government and to all political subdivisions of the state a list giving the names of persons who have disregarded their obligations to employees. A person appearing on this list and a firm, corporation, partnership, or association in which the person has an interest may not work as a contractor or subcontractor on a public construction contract for the state or a political subdivision of the state until three years after the date of publication of the list. If the accrued payments withheld under the contract are insufficient to reimburse all the laborers, mechanics, or field surveyors with respect to whom there has been a failure to pay the wages required under AS 36.05.070, the laborers, mechanics, or field surveyors have the right of action or intervention or both against the contractor and the contractor's sureties conferred by law upon persons furnishing labor or materials, and in the proceedings it is not a defense that the laborers, mechanics, or field surveyors accepted or agreed to accept less than the required rate of wages or voluntarily made refunds.

**ADDITIONAL INFORMATION**

**APPRENTICE RATES**

Apprentice rates at less than the above minimum prevailing rates may be paid apprentices according to an apprentice program which has been registered and approved by the Commissioner of Labor and Workforce Development in writing, or according to a bona fide apprenticeship program registered with the Bureau of Apprenticeship and Training, United States Department of Labor. **Any employee listed on a payroll at an apprentice wage rate who is not registered as above shall be paid the journeyman prevailing minimum wage in that work classification.** Wage rates are based on prevailing crew makeup practices in Alaska and apply to work performed regardless of either the quality of the work performed by the employee or the titles or classifications which may be assigned to individual employees.

**FRINGE BENEFIT PLANS**

Contractors/subcontractors may compensate fringe benefits to their employees in any one of three methods. The fringe benefits may be paid into a union trust fund, into an approved benefit plan which has been accepted by the Department, or paid directly on the paycheck as gross wages.

Where fringe benefits are paid into approved plans, funds, or programs including union trust funds, the payments must be made at least quarterly. If contractors submit their own payroll forms and are paying fringe benefits into approved plans, funds, or programs, the employer's certification must include, in addition to those requirements of 8 AAC 30.020(c), a statement that fringe benefit payments have been or will be paid at least quarterly. Contractors who pay fringe benefits to a plan must insure the plan is one approved by the Internal Revenue Service and accepted by the Alaska Department of Labor and Workforce Development in order for payments to be credited toward the prevailing wage obligation. Health and Welfare plans also **must be accepted by the Alaska Department of Labor and Workforce Development prior to being applied to the prevailing wage obligation.**

**SPECIAL PREVAILING WAGE RATE DETERMINATION**

Special prevailing wage rate determinations may be requested for special projects or special worker classification if the work to be performed does not conform to traditional public construction for which a

prevailing wage rate has been established under 8 AAC 30.050 (a) of this section. Requests for special wage rate determinations must be in writing and filed with the Commissioner at least 30 days before the award of the contract. An applicant for a special wage rate determination shall have the responsibility to support the necessity for the special rate. An application for special wage rate determination filed under this section must contain:

- (1) a specification of the contract or project on which the special rates will apply and a description of the work to be performed;
- (2) a brief narrative explaining why special wage rates are necessary;
- (3) the job class or classes involved;
- (4) the special wage rates the applicant is requesting, including survey or other relevant wage data to support the requested rates;
- (5) the approximate number of employees who will be affected; and
- (6) any other information which might be helpful in determining if special wage rates are appropriate.

Requests made pursuant to the above will be addressed to:

Commissioner  
Alaska Department of Labor and Workforce Development  
Labor Standards and Safety Division  
Wage and Hour Administration  
P.O. Box 107021  
Anchorage, Alaska 99510-7021

**LABOR STANDARDS REGULATIONS  
NOTICE REQUEST**

If you would like to receive *notices of proposed changes to regulations* for Wage & Hour or Mechanical Inspection, please indicate below the programs for which you are interested in receiving such notices, print your name and mailing address in the space provided, and mail this page to:

Wage and Hour Administration

**ALASKA HIRE EMPLOYMENT PREFERENCE**

AS 36.10. By authority of AS 36.10.150 and 8 AAC 30.064, the Commissioner of Labor and Workforce Development has determined the entire State of Alaska to be a Zone of Underemployment. A Zone of Underemployment requires that qualified Alaska residents who are eligible under AS 36.10.140 be given employment preference. This hiring preference applies on a project-by-project, craft-by-craft or occupational basis, and must be met each workweek. 8 AAC 30.081 (e) and (f) contains a waiver provision for employers having difficulty fulfilling the preference requirement. Waiver forms are available at Regional Wage and Hour Administration offices.

The following classifications qualify for a minimum of 90 percent Alaska resident hire preference:

Boilermakers	Equipment Operators	Plumbers and Pipefitters
Bricklayers	Insulation Workers	Roofers
Carpenters	Laborers	Sheet Metal Workers
Cement Masons	Mechanics	Truck Drivers
Electricians	Painters	Welders

This determination became effective July 1, 2001 and remains in effect until June 30, 2003.

Please be advised that most public contracts are covered. Funding sources are unique for every project. The inclusion of federal funds does not necessarily remove a project from jurisdiction. If there is any uncertainty about whether or not the law applies to a particular project, the Department requests that you contact the regional office nearest you for a determination.

## DEBARMENT LIST

**AS.36.05.090(b)** states that “the state disbursing officer or the local fiscal officer shall distribute to all departments of the state government and to all political subdivisions of the state a list giving the names of persons who have disregarded their obligations to employees.

A person appearing on the following debarment list and a firm, corporation, partnership or association in which the person has an interest may not work as a contractor or subcontractor on a public construction contract for the state or a political subdivision of the state for three (3) years from the date of debarment.
