Notice: 8 AAC 90.137 Plumber Restricted PU Certificate of Fitness

Attention: General, Mechanical, Water System, Excavation, Water and Sewer Contractors that install water service and sewer lines to building sites.

Re: Certificate Of Fitness Requirements for Water Service Piping and Sewer Lines

A plumber restricted PU certificate of fitness authorizes the holder of the certificate to install:

- (1) water service piping from the street, right-of-way main, water well, or storage tank to the first stop valve of the serviced structure or other point of use or distribution on the serviced property;
- (2) building sewer piping from within two feet of a serviced structure to a public sewer, private sewer, private sewage disposal system, or other point of disposal;
- (3) building storm drains that receive the discharge of roof drains, leaders, downspouts, or conductors, if the storm drains are installed from within two feet of a commercial structure, or from within two feet of a residential structure of four or more dwelling units, to the street, the right-of-way main line, or a point of disposal approved by the federal, state, or local agency having jurisdiction.

Plumber PU Restricted Certificate of Fitness

Minimum Requirements: 1000 hours of work experience installing water, sewer, or storm drain piping; may substitute up to 125 trade related classroom hours, and passes examination given by the department.

Cost: application fee \$50, 2 year license fee \$200

To obtain further information or an application to apply for a plumber utility certificate of fitness, please contact Alaska Department of Labor and Workforce Development, Mechanical Inspection at 907-269-4925, and press Option 1, or email to: Anchorage_LSS-MI@alaska.gov.

Application packages for a State of Alaska, Certificate of Fitness are also available on-line at www.labor.alaska.gov/lss/mihome.htm.
