### **Some Extended Unemployment Benefits to End**

JUNEAU, Alaska—Alaska's insured unemployment rate fell below 6 percent, ending the federally funded Extended Benefits, State Supplemental Benefits and Emergency Unemployment Compensation Tier 4 benefits on May 4.

Unemployed workers with EUC Tier 4 claims established prior to May 4 may continue to draw remaining balances until they are exhausted, or through the week ending December 28, whichever occurs first. Any existing EB/SSB balances will not pay after May 4.

The Alaska Department of Labor and Workforce Development's Employment Security Division, which administers the Unemployment Insurance Program, will notify affected workers of changes to their benefits.

Alaskans collecting benefits are encouraged to read instructions sent by the department that highlight work search requirements in effect for all individuals claiming EUC benefits.

Job seekers are encouraged to contact the nearest Alaska Job Center for assistance, resume development, career planning, job search skills and more.
